REGISTER BOOKS AND OTHER PUBLICATIONS ISSUED BY THE COMMITTEE OF LLOYD'S REGISTER

LLOYD'S REGISTER BOOK (Volumes I, II and III issued annually in July; Volume IV in January).

The four volumes may be purchased as a set, or separately.

VOLUME I (Register of Ships) contains the names, classes and general information concerning the ships classed by Lloyd's Register and the British Corporation Register; also particulars of all known sea-going merchant ships in the world, and of all iron and steel ships trading on the North American Lakes, of 100 tons gross and upwards.

The Register is kept up to date by means of cumulative monthly Supplements containing the latest survey records for all classed ships, and changes of name, ownership, flag, tonnage, &c., for all ships, whether classed or not. Each Supplement is accompanied by particulars of new entries to the Register—that is, new ships and ships of which the names have been changed.

VOLUME II (Appendix) contains additional particulars—if supplied by Owners or otherwise available—of structural details, capacities, &c., for ships other than tankers, tankers and ships carrying refrigerated cargo; lists of changes of ships' names and compound names.

VOLUME III (Shipowners) contains a list of owners and managers of the ships recorded in the Register with their fleets.

VOLUME IV (Directory) contains lists of shipbuilders with existing ships they have built; marine enginebuilders and boilermakers; dry and wet docks; telegraphic addresses and codes used by shipping firms; marine insurance companies.

Statistical Tables are issued gratis to Subscribers to the Register Book.

REGISTER OF YACHTS. Published annually in April, this volume contains in addition to the names, classes, and detailed information relating to yachts classed by the Society, the names, dimensions, &c., of other British and Foreign yachts, whose particulars are known; a list of one-design classes, and the sail numbers of certain classes of racing yachts; also, in an Appendix, a list of various yacht clubs, reproductions in colour of club burgees and private signals of yachtsmen; an index of signal letters; lists of yachts whose names have been changed; yachts arranged according to tonnage; yacht builders and designers, with lists of the yachts they have built and designed, and a list of names and addresses of yacht owners, as well as other useful information.

The Racing Yacht Section and Regatta Fixtures may be purchased separately.

REGISTER OF AMERICAN YACHTS. This Register is published annually in May from the Society's New York Office. Copies may also be obtained on application to the Manager, Lloyd's Register Printing House, Manor Royal, Crawley, Sussex, England.

This book contains the names, dimensions, and full particulars of the yachts of the United States and Canada, so far as they are ascertainable; reproductions in colour of the burgees of yacht clubs and the private signals of yachtsmen; a list of yacht clubs with the names of their officers; an index of signal letters; late names of yachts; and a list of yacht owners of the United States and Canada, with their addresses, clubs and yachts.

Also issued separately :—Club Burgees and Private Signals (in colour).

Offices of Lloyd's Register

FOREWORD

SPECIAL attention is directed to the necessity of consulting the latest issue of the monthly Supplement for up-to-date records of surveys held on ships classed with the Society.

The information published in this Register of Ships has been obtained from sources which are believed to be reliable, but the Society is unable to guarantee the accuracy of all the details included.

Additional particulars of a more technical nature, where available, will be found in Sections 1, 2 and 3 of the Appendix (Volume II).

W. J. FERGUSON,

July, 1958 *Secretary*

Extract from the Society's Regulations :—

"While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."

KEY TO THE REGISTER OF SHIPS

Column 1

MT (with date)	Expiry date of a Passenger Certificate issued by the British Ministry of Transport.

Column 2

LATE NAMES	The figures following a late name of a ship indicate the year in which the change of name occurred.
DF	Fitted for Direction Finder
ESD	,, Echo Sounding Device
GC	,, Gyro-Compass
PFD	,, Position Fixing Device
RDR	,, Radar
SBS	,, Submarine Signalling Apparatus

Column 3

TONNAGES	The gross and net tonnages printed in roman type are, with a few exceptions, the official tonnages measured according to the law of the country in which the ship is registered. For some ships not sailing under the British flag, the tonnages have been measured in accordance with British rules and are accepted under British law. In such cases the gross and net tonnages are printed in *italic type.*
DEADWEIGHT	The figure recorded is the total deadweight tonnage of cargo and bunkers at the summer loadline, as stated by the owners.

Column 4

OWNERS	The name recorded is that of the Managing Owner, or of the firm in which the Managing Owner is a partner.
MANAGERS	The managers of the ship are recorded if desired.
PORT OF REGISTRY	A port printed in *italic type* is the Home Port of a ship and is shown where there is no known Port of Registry.

Column 5

CLASSIFICATION SYMBOLS OF LLOYD'S REGISTER OF SHIPPING

✠	Denotes that the ship was built under the supervision of the surveyors in accordance with the Rules and Regulations of Lloyd's Register of Shipping.
*	Denotes that the ship was built under the supervision of the surveyors in accordance with the Rules of the British Corporation.
100A1	Character of sea-going iron or steel ships classed with Lloyd's Register.
90A1	Character previously assigned to iron or steel ships of a lower standard, but now discontinued.
A1	Character assigned to ships intended to trade within specially sheltered waters such as harbours, rivers or estuaries. Prior to 1948 this character was also assigned for limited sea-going service.
A1	Character of wood or composite ships. The number prefixed to the character indicates the term of years for which the ship is at present classed. Cont. or Rest. indicates continuation or restoration of class after the original term of years has expired. A number of years suffixed to the character, thus–8 yrs, indicates the period of extension granted in certain cases.
1	The figure **1** in the character signifies that the ship has equipment of anchors, chain cables and hawsers in accordance with, or of a standard equivalent to, the requirements set forth in the Rules for sea-going ships classed for unrestricted service or has equipment which is acceptable to the Committee for a special or restricted service. If, by reason of the ship's service, normal equipment is considered to be unnecessary, the figure **1** may be omitted from the character of classification.
▬	This sign in the position usually occupied by the figure **1** indicates that the equipment of the ship is not in accordance with the full tabulated requirements.
Examined LR	Indicates that the ship has been surveyed for maintenance by the Society's surveyors.
with freeboard with fbd	Signifies that the freeboard assigned is a condition of the ship's class. The scantlings of ships built since 1949 are based upon a specified draught and this notation is no longer assigned.
LMC **✠LMC** ***LMC**	Denotes that the machinery has been classed with Lloyd's Register. The ✠ or * signifies that the machinery was built under the supervision of the surveyors to the Rules of Lloyd's Register or of the British Corporation respectively.
(LMC) **(✠LMC)** **(*LMC)**	When the LMC class is shown in parentheses, this indicates that the class has been temporarily suspended.
Lloyd's RMC **✠Lloyd's RMC**	Denotes that the refrigerated cargo installation of a ship has been classed with Lloyd's Register. The ✠ signifies that the installation was constructed under the supervision of the surveyors.
(Lloyd's RMC) **(✠Lloyd's RMC)**	When the Lloyd's RMC class is shown in parentheses, this indicates that the class has been temporarily suspended.

Column 5 (contd.)

Classification symbols of the British Corporation

(United with Lloyd's Register in 1949)

*	Denotes that the ship was built under the supervision of the surveyors in accordance with the Rules of the British Corporation.
BS	Hull and equipment of iron or steel ships classed according to British Corporation Rules.
BS **H✠**	Hull and equipment classed according to British Corporation Rules, but surveyed during construction by Lloyd's Register surveyors to plans approved by the British Corporation.

BSt	Wood ships classed according to British Corporation Rules and built of	teak
BSo		oak or wood of similar durability
BSp		hard pine or wood of similar quality
BSf		spruce or similar soft wood

(EI)	Equipment incomplete. Indicates that the equipment of the ship is not in accordance with the full tabulated requirements.
with freeboard with fbd	Denotes that the hull has been built with modified scantlings and arrangements approved for service in any part of the world at the assigned freeboards. This notation was discontinued in 1947.
MBS MBS* MBS✠	Machinery classed according to British Corporation Rules. The * or ✠ signifies that the machinery was built under the supervision of the surveyors to the Rules of the British Corporation or of Lloyd's Register respectively.
MBS $^{\text{E✠}}_{\text{B*}}$	Machinery classed according to British Corporation Rules. Engines surveyed during construction by Lloyd's Register and boilers by British Corporation surveyors.
MBS $^{\text{E*}}_{\text{B✠}}$	Machinery classed according to British Corporation Rules. Engines surveyed during construction by British Corporation and boilers by Lloyd's Register surveyors.
RMC RMC*	Denotes that the refrigerated cargo installation of a ship has been classed with the British Corporation. The * signifies that the installation was constructed under the supervision of the surveyors.
(RMC) (RMC*)	When the RMC class is shown in parentheses, this indicates that the class has been temporarily suspended.
SS–with date	Special Survey. Records of any later Special Survey and the latest records of all other periodical surveys are published in the monthly Supplement.
(Dr)–with date	Special Survey including drilling of shell and deck plates.
(M)–with date	Modified Special Survey; the period for which the class is maintained follows the date.
(P)–with date	Progressive Survey
APT	After peak tank
FPT	Fore peak tank
DT	Deep tank
a or f	Aft or forward
MT	Midship deep tank
DB	Double bottom
FP—°F.	Flash point in degrees Fahrenheit
BC class expgd. LR class expgd.	Indicates that the class has been expunged by the Committee for non-compliance with the Society's Regulations or for reported defects.
BC class w'drn. LR class w'drn.	Indicates that the class has been withdrawn at the Owners' request.

If no classification symbol or notation appears except the ✠ or * it indicates that the ship was built under the supervision of the surveyors of Lloyd's Register or the British Corporation, and that the class has been withdrawn on expiration, or in default of survey, or on account of non-payment of fees due.

AB	American Bureau of Shipping classification
BV	Bureau Veritas classification
GL	Germanischer Lloyd classification
HR	Hellenic Register of Shipping classification.
NK	Nippon Kaiji Kyokai classification
NV	Norske Veritas classification
RI	Registro Italiano classification

Column 6

Unless otherwise stated, ships are of steel construction.

The lengths recorded in roman type are the overall lengths, as stated by the owners, or obtained from other reliable sources. If this information is not available, the registered length, as given on the ship's Certificate of Registry, is inserted in *italics*, thus *235·7′*.
